# Effective nutrition to support GI health in dogs with suspected food intolerances

**Specific ingredients:** that rarely cause adverse food reactions

Egg: single intact animal protein, highest bioavailability

Rice: high-quality carbohydrate source

**High digestibility** supports absorption of nutrients and supports GI health

**Natural fibres** from barley and oats to support a healthy balance of intestinal bacteria

**High energy density** provides adequate energy in small portions, reducing GI workload

**New**

92%  
of dogs prefer  
the taste  
vs. key competitive  
product<sup>1</sup>

## Exceptional taste

To encourage even  
inappetent and  
fussy dogs to eat.

## Complete range to support GI health in your clinic
